

NCPRE

National Center for Photovoltaic Research and Education

**ONE DAY WORKSHOP
ON
POWER ELECTRONICS
CHALLENGES FOR
SOLAR INDUSTRY IN
INDIA**

**July 6th, 2018
9:30 AM – 5:30 PM**

NO FEES

GOVERNMENT OF INDIA
MINISTRY OF NEW
AND RENEWABLE ENERGY

Venue: VMCC, IIT Bombay

ABOUT THE EVENT

NCPRE (National Center for Photovoltaic Research and Education) is conducting a ONE day **workshop** on **‘Power Electronics challenges faced by Solar Industry in India’**. The main purpose is to explore the most critical problems faced by the Indian solar Power Electronics industry and decide on a path forward. This open dialogue between PE industry players and NCPRE investigators and research faculty can help in putting together a Roadmap for Solar PV Power Electronics growth in India

AGENDA

- The workshop will have talks by leading experts in the field of Solar PV Power Electronics from industry and academia.
- The participants will also have the opportunity to visit the various facilities at NCPRE, and interact with other participants and NCPRE investigators.
